

Retailers tell it like it is!

Mercury Adhesives award-winning line of products are making a statement at retailers around the world.

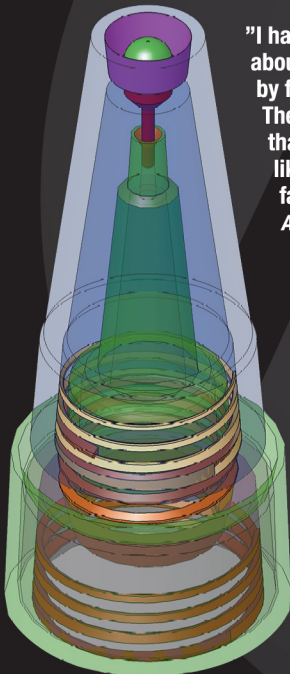

"We are loving the Mercury products! Not only are the margins great but the innovative cap design and colorful packaging make it easy to sell."
David and Faye Kahn, Hobby Town, Duluth GA

"The quality of Mercury products is exceptional and the colorful retail packaging allows the store to look like it is really in the adhesive business. The display draws the customer to conversation which allows us to talk about the glue and the science behind Mercury products which results in sales. All of this and with a full 2 year guarantee and the high margins Mercury offers has demonstrated to us that we have a winner!"
Steve Emerson, Hobby Town, Cumming, GA

"The Mercury Adhesives is really selling itself, a wonderful product. Glue is boring but Mercury is finally something we can talk about in our store! You guys did very well!"
DeWayne Solomon, Knox Hobbies, Knoxville, TN

"When Steve Evans called and told me about Mercury Adhesives, I did not hesitate placing an order for the full line. I know Steve's extensive background with CA's and what that brings to the technical side of the product. The no clog cap design, two year warranty, colorful packaging, and made in USA appeals to our customers. With good margins and extended terms, Mercury is a winner."
Steve and Anna Margaret Broz, Hobby Town, Strongsville, OH

"I have had the pleasure of building for many of the top TOC pilots. During these years I have used just about every type of adhesive known to modeling and must say that the Mercury Adhesives products are by far the best adhesive system I have ever used. The purity and stability is second to none and the ingenious pin-in-cap nozzle and cap closure assures that the nozzle is always clean and open. Since using this system I have never experienced a clogged nozzle like I have with just about every other brand I have used. Great cap design and along with this I get the fastest and strongest CA's I have ever used."
A.J. Lee

**Only CA manufactured in the USA!
Two year unconditional guarantee!**

Mercury Adhesive's exclusive "Pin in Cap" bottle top screws on and off instead of the usual push-pull. This assures a smooth never clog operation and a tight seal preserving freshness.

Mercury does not sell direct to consumers and knows that the level of service customers will receive direct from one of its dealers will complement the Mercury products. To offer Mercury Adhesives in your location visit our website or give us a call.
